DETAILED ACTION

Remarks

1. Applicant should have received a notice, mailed on May 11, 2005, that this application has been withdrawn from issue. By virtue of this communication, the application is allowed again. However, new drawings are still required, as noted below.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the gaps and separation membranes recited in claim 1 must be shown. These features are believed to be critical to the understanding of the presently claimed invention.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next communication.
